Scrolling around feels unusually clunky, the units are actually only slightly different from each other in practice (maybe if you git gud then the minor distinctions in how they heal and circumstances where they self-buff become important, but when just trying the game you just have to put more units up against fewer units), and the random card draws mostly serve to sometimes annoy you with a hand full of spells you don't really need and can't easily get rid of. Oh, and the single player mode is definitely not the mode they were hoping people would play, which is too bad when there's nobody else playing..
